- Filter by document status / type or relevance
- "Document list" look & feel
- Subscriptions improved

And more...

Folder functionalities

- Folder operations history
- Mass editing of folder properties
- Folder lists
- Mass editing of folder properties

Access control

- Custom property field access control
- Folder roles

Workspace Administration

- Improved user group management
- Administrators can view & edit users' settings
- Administrators can edit users' subscriptions
- Reorganizing of custom properties

Other improvements

- Adding file to comment
 - Format dates (YYYY-mm-dd => dd.mm.YYYY)
 - Support for UTF-8 characters
 - Webservice API
-

Requirements

Client

- Internet Explorer 6 or 7, Firefox 3
- Java 5 or 6 (recommended)

Server

- Red Hat Enterprise Linux 4 or 5
 - Oracle Database 10g R2
-
