

Kronodoc Office Connector 11.0

Save files directly from Microsoft Word, Excel or PowerPoint to Kronodoc 4.0

The Kronodoc Office Connector extends Microsoft Word, Excel and Powerpoint by adding a menu for storing files directly to Kronodoc installations. The menu is customizable and can contain pointers to various installations, workspaces and/or folders.

By using the Kronodoc Office Connector, the user no longer has to browse for the files to upload and can be sure that the correct file version is uploaded.

Supported software versions

- Microsoft Windows XP, Vista 32- and 64 bit
- Microsoft Word 2007, 2003 and 2000
- Microsoft Excel 2007, 2003 and 2000
- Microsoft Powerpoint 2007, 2003 and 2000
